WHAT THE KIDNEYS DO.

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms-pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

Mrs. W. I. Bailey, living on East Greenville street, Madisonville, Ky., says: "It is four years since I recommended Doan's Kidney Pills through our papers, and my confi-Handsomely Illustrated Book dence in them during the time which has elapsed has not been shattered in the least, but to the contrary, I learned more about them and can recommend them even more strongly. The book will give children a knowledge of the production and preparation of foods, and show how civilization and commerce grew from man's need of foods and the exchange of foods between the various nations. The author takes the children on personally conducted tours to the great food centers of the world, to the markets of exchange, to the factories, the farms, the forests and the seas. Together they visit the wheat fields, the flour mills, the cattle ranches and the Batiello and his all-star band from packing houses. They learn to unproducts, and go to the fisheries, to the orchards and vineyards, and to the tea, coffee, rice and sugar plantahalf tone the tea, coffee, rice and sugar plantations. The volume is as interesting as any story book, and is profusely photographs.
